DETAILED ACTION

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 5 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 5 is indefinite because there is no direct antecedent basis for the recitation of "the gas", as claim recites "fluid". Claim 13 is indefinite because there is no direct antecedent basis for the recitation of "the Group IIB (12) metal)" in either claim 1 or claim 12.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-6 and 8-18 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the filter material of Melkersson et al. (3,786,619).
5. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the filter material of Chao (4,474,896).
6. Claims 18-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the process of making a filter material of Broecker et al. (5,063,194).
7. The remaining references listed on the PTO-892 show art of interest.
8. Applicants response to this Office action should also include the following editorial change: claim 1, line 2, "a active" should be "an active".
